

Selsey Bill Sub-Aqua Club
Branch No. 2157 of the British Sub-Aqua Club

Press Release

6th March 2017 – For Immediate Release

**Selsey Bill Sub Aqua Club Celebrate
20-year Anniversary**

Selsey Bill Sub-Aqua Club, formed in March 1997 as British Sub-Aqua Club Branch 2157, are delighted to be celebrating their 20th Anniversary. A small branch of 20 members based in the West Sussex coastal town, all dive regularly and enjoy an active social scene around the club.

Many of the original members are still active within the branch, which benefits from their substantial combined experience (with some of them diving since Neptune was a boy).

Celebrations planned include diving expeditions to Penzance, Kimmeridge and further afield to the Philippines, and an anniversary garden party.

There is also a program of local diving planned revisiting the first 20 sites dived locally by the club. This will allow a fascinating comparison with old log books giving an insight into how sites can change over time, and provide a window into the health of our seas.

The picture shows club members at their recent AGM proudly displaying the 20th Anniversary commemorative certificate from BSAC. Branch member Keith Burley can be seen holding the clubs Honeywood Award, which he received for his work organizing expeditions and taking a key role in the maintenance of the club RIB.

About Selsey Bill Sub-Aqua Club

Selsey Bill Sub-Aqua Club is a branch of the British Sub-Aqua Club, the sport's governing body for SCUBA diving in England.

Based in Selsey, West Sussex, and established for over 20 years, we dive a variety of sites, both locally and across the south coast. Diving takes place every weekend, weather permitting. Additionally diving trips abroad are also regularly organised.

We exist as a not-for-profit organisation and are funded by our members and our fund raising activities.

We would welcome enquires for membership from BCAS qualified divers and divers from all other agencies. Selsey Bill Sub-Aqua Club regularly runs diver training, to a variety of levels of qualification.
